

The 10 most-tested topics in Mathematics 0580

Every real past-paper question in our library, tagged to its syllabus topic. 13,989 questions analysed.

21.1%

These 10 topics alone account for **21.1% of every past-paper question** in Mathematics 0580 — out of **175 topics** in the whole syllabus.

Percentages are each topic's share of **13,989 genuine Cambridge past-paper questions** in the PapaMarks library — a strong proxy for how often each area is examined. Exact weightings vary by series; use this to prioritise revision, not as a guarantee.
