

The 10 most-tested topics in Chemistry 0620

Every real past-paper question in our library, tagged to its syllabus topic. 17,492 questions analysed.

24.2%

These 10 topics alone account for **24.2% of every past-paper question** in Chemistry 0620 — out of **107 topics** in the whole syllabus.

Percentages are each topic's share of **17,492 genuine Cambridge past-paper questions** in the PapaMarks library — a strong proxy for how often each area is examined. Exact weightings vary by series; use this to prioritise revision, not as a guarantee.
