

The 10 most-tested topics in Physics 0625

Every real past-paper question in our library, tagged to its syllabus topic. 6,525 questions analysed.

25.1%

These 10 topics alone account for 25.1% of every past-paper question in Physics 0625 — out of 131 topics in the whole syllabus.

Percentages are each topic's share of 6,525 genuine Cambridge past-paper questions in the PapaMarks library — a strong proxy for how often each area is examined. Exact weightings vary by series; use this to prioritise revision, not as a guarantee.
